Skills

Programming Languages: C, C++, Java, Python, JavaScript, SQL
Web Development: HTML, CSS, JavaScript, TypeScript, React.js
Tools & Platforms: Git, GitHub, VS Code

Projects

Study Buddy — Smart Study Tracking System (Group Project)
Tech Stack: React.js, Node.js, Express.js, MongoDB, OpenCV, YOLOv8, Gemini Flash API

- Developed a full-stack study monitoring system with focus dashboard and study timer.
- Implemented backend APIs using **Node.js and Express.js** for analytics and session handling.
- Integrated **OpenCV and YOLOv8** for face, phone, and multiple-face detection.
- Added a real-time Streamlit dashboard and study-support chatbot.

Med4You — Patient Care Website (Group Project)
Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Gemini Flask API

- Developed a full-stack platform for hospital search and pre-bed booking.
- Designed a **live doctor availability system** showing patient queue and wait time.
- Built responsive dashboards using **React.js** with **MongoDB**.
- Implemented backend services with secure doctor–patient request approval.
- Built an **AI chatbot** for hospital recommendations and medical history insights.

Food Ordering Website
Tech Stack: HTML, CSS, JavaScript

- Developed an intuitive online food ordering platform with a user-friendly interface.
- Implemented real-time order tracking to enhance transparency and user experience.

Resume Analyzer Web App
Tech Stack: HTML, CSS, JavaScript

- Built an NLP-based web app to analyze resumes for formatting and keyword relevance.
- Provided role-specific feedback to help users improve resume quality.
